

## Cleaning Tips

**Keep this quick reference chart with your cleaning products or vacuum cleaner for easy reference.**

- Remember to act quickly on spills. Scoop up solids and soak up liquids using a clean white absorbent towel or sponge.
- Clean with the appropriate treatment from the cleaning guide. All cleaning agents should be tested on an inconspicuous area of carpet before use. Apply the cleaning agent to a clean white cloth - not directly to the carpet. Remember that to avoid spreading the stain, start from the outside of the stained area and work towards the centre. Do not rub or scrub your carpet.
- Rinse carefully with cold water using a clean cloth.
- Blot dry with an absorbent towel, or use a cold air fan to complete drying.
- WoolSet recommend a thorough vacuum at least once a week and professional cleaning every 2 years.
- Ask your WoolSet retailer for WoolSet's own spot cleaner and sponge soaker.

# Type of Treatment

1. Cold water.
2. One tsp of wool detergent (for example, Softly) with one tsp of white vinegar and one litre of warm water.
3. Clear household disinfectant.
4. Dry cleaning solvent such as White Spirits or Murlex (from hardware stores). Use only on dry carpet.
5. Chill with ice cubes in a plastic bag. Pick or scrape off gum.
6. Mix 1/3 cup of white vinegar with 2/3 cup water.
7. Warm water.
8. Nail polish remover (lanolin free).
9. Surgical alcohol.
10. Place absorbent paper over wax and apply hot iron to paper.
11. Vacuum clean.
12. Mineral turpentine.
13. Seek professional assistance.

(Begin with Step One and proceed to Step Two or Three if necessary.)
